DETAILED ACTION

Allowable Subject Matter

Claims 12, 13, 23-26, 45-49 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art taken either singularity or in combination fails to anticipate or fairly suggest the limitations of the independent claim, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims 23, with the allowable feature being; positioning an adapter between said first lamp and said darkfield condenser(claim 12); placing a lower oil drop on the underside center of said slide(claim 13); the a dual-frequency filter controller connected to said dual-channel filter and configured to send a primary control signal and a secondary control signal to said dual-channel filter, said dual-channel filter configured to broadcast said first light wave on a first channel in response to said primary control signal and, in an alternating fashion(claim 23). Therefore claims 12, 13, 23-26, 45-49 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
